PROFILE

Highly motivated individual seeking opportunities as a full stack web developer. I like to think of myself as a quick learner, detail-oriented, and a professional with excellent teamwork and communication skills

SKILLS

- JavaScript
- PHP
- Ruby
- Rails
- React
- Bootstrap
- HTMl5
- CSS
- Postgresql
- MySQL
- REST
- AJAX
- MVC

EXPERIENCE

INTERN

CODING ZEAL | MAR 2019 - JUN 2019

- Worked remotely with a team to build an initiative tracker application using Ruby on Rails that will be internally utilized by the Zeal team.
- Participated and interacted directly with the product owner during IPM's
- Analyzed functional requirements, developed code, and implemented RSpec testing on features
- Developed a strong understanding of a daily workflow using GitHub

STUDENT

LEARN ACADEMY DEV BOOTCAMP | NOV 2018 - MAR 2019

- 400 hours of hands on training in web development and problem-solving skills.
- Experience with Mob and Paired Programing. This exposure allowed a significant improvement with communication skills.
- Specialized areas of knowledge in JavaScript, React, Ruby on Rails, GitHub, Postgresql, AJAX, Test Driven Development, and SCRUM

SERVICE MANAGER

AERIAL LIFT SERVICE CO. | APR 2012 - OCT 2018

- Managed and organized customer repairs by developing a structured system and utilizing this system to efficiently provide a high level of quality repairs in a timely manner.
- Generated a 25% increase in part sales and equipment sales from the start and end of my role in this position by establishing many strong customer relationships in the greater Sacramento area.
